

Dear \_\_\_\_,

In supporting education for intelligent but in need students in Ghana, we're always stunned by the support of our community. It warms our hearts every day to see how much people care about raising educational standards around the world!

In providing for the tuition, housing, technology, academic guidance, and career development costs for these students, we're always in need of new supportive donors. That's why we're reaching out to you to see if you would like to contribute to the sponsorship of a Ghanaian student in need!

We've soared to even greater heights than ever before with the help of those like you – and even as we've had to evolve in the middle of this massive pandemic, our goals remain the same. We want to help as many students as possible on their path to realizing their potential.

Will you consider donating to make that dream possible?

Donations are the lifeblood of an organization like ours. And as we continue to reach out to the community for individual and corporate donors, our waitlist expands as even more in need students apply.

Please join us today in supporting these brilliant students while they achieve their academic dreams.

As I'm sure we're all currently aware, the cost of tuition is high, but the value of a quality education is priceless. And for every donation, every sponsor, and every corporate partner, even more students will get to experience the joys of achieving academic excellence.

Together, we can provide for these students in ways they only dreamed of.

These donations don't just support the individual students – they support creating an environment of academic success that only grows as we continue. And the more support we have, the more in need students we can help.

We're looking to grow to even greater points in supporting further education in Ghana. Will you be there to help us?

Joseph and Elizabeth Quansah

Executive Director
