I want to thank you for your extremely generous donation to our organization. In just the few minutes it took for you to donate, you've changed the life of one of the many intelligent but in need students in Ghana we support.

As we strive to empower the next generation of leaders and support their education, your support is crucial. And in providing funds to help us reach our goal of reaching as many deserving students in Ghana as possible, you're directly contributing to their futures.

The cost of education that bars these deserving students from reaching their true peaks is massive – your donation goes towards the basic costs of supporting a quality education:

- Cost of tuition and housing
- Buying tuition materials and supplies
- Breaking down the educational disparities between urban and rural areas
- And covering the application fees!

While many families in Ghana struggle to make these measures, you've shown that you are a true friend to education in providing a chance to succeed.

Together, we can lift these students out of poverty.

Right now, our program is limited in how many students we can sponsor. That's why continued support and donations are the make or break point for our organization.

We know you care about supporting education, and we hope you will continue to consider us in the future when you seek to make a change in the world. You've already helped open the door to a new world for one of our students – there's always a chance that you can do it again for another!

Thanks for everything you do. We hope you'll continue to support our mission as we work harder each day to achieve academic excellence in Ghana!

Sincerely yours,

Joseph & Elizabeth Quansah
